### **About ICMR**

The Indian Council of Medical Research (ICMR), New Delhi, the apex body in India for the formulation, coordination and promotion of biomedical research, is one of the oldest medical research bodies in the world.

The ICMR has always attempted to address itself to the growing demands of scientific advances in biomedical research on the one hand, and to the need of finding practical solutions to the health problems of the country, on the other. The ICMR has come a long way from the days when it was known as the IRFA, but the Council always strives achieve scientific goals as well as health targets.

The Council's research priorities coincide with the national health priorities such as control and management of communicable diseases, fertility

control, maternal and child health, control of nutritional disorders, developing alternative strategies for health care delivery, containment within safety limits of environmental and occupational health problems; All these efforts are undertaken with a view to reduce the total burden of disease and to promote health and well-being of the population.

### **About IPR Workshop**

Intellectual Property Rights (IPR) refers to creations of the mind, inventions, literary and artistic works, symbols, names and images. Intellectual Property includes patents for inventions, trademarks, industrial designs and geographical indications.

It is driven by creativity and innovation, which needs to be protected and channelised for better use in future. Enhancing the protection of IPR beyond the trade-related aspects of Intellectual Property Rights (TRIPS), the Indian government has announced an IPR policy that is in compliance with global norms.

Hence, the purpose of organizing a workshop on IPR for teachers and research scholars working in college and universities is obvious.

### **Workshop Objectives**

The following are the objectives of organizing the Workshop on IPR:

1. To explain the scope and coverage of intellectual properties rights in general
2. To educate biotechnologist (teachers / scholars / students) on definition and coverage of IPR in biomedical field
3. To train the participants on procedural formalities to be followed to obtain patent & copyright for their original works
4. To arrange for a brain storming session to address the frequently asked question with respect to IPR with hands-on training
